SPATULA EFFECT

The classic spatula technique gives the floor its characteristic liveliness.

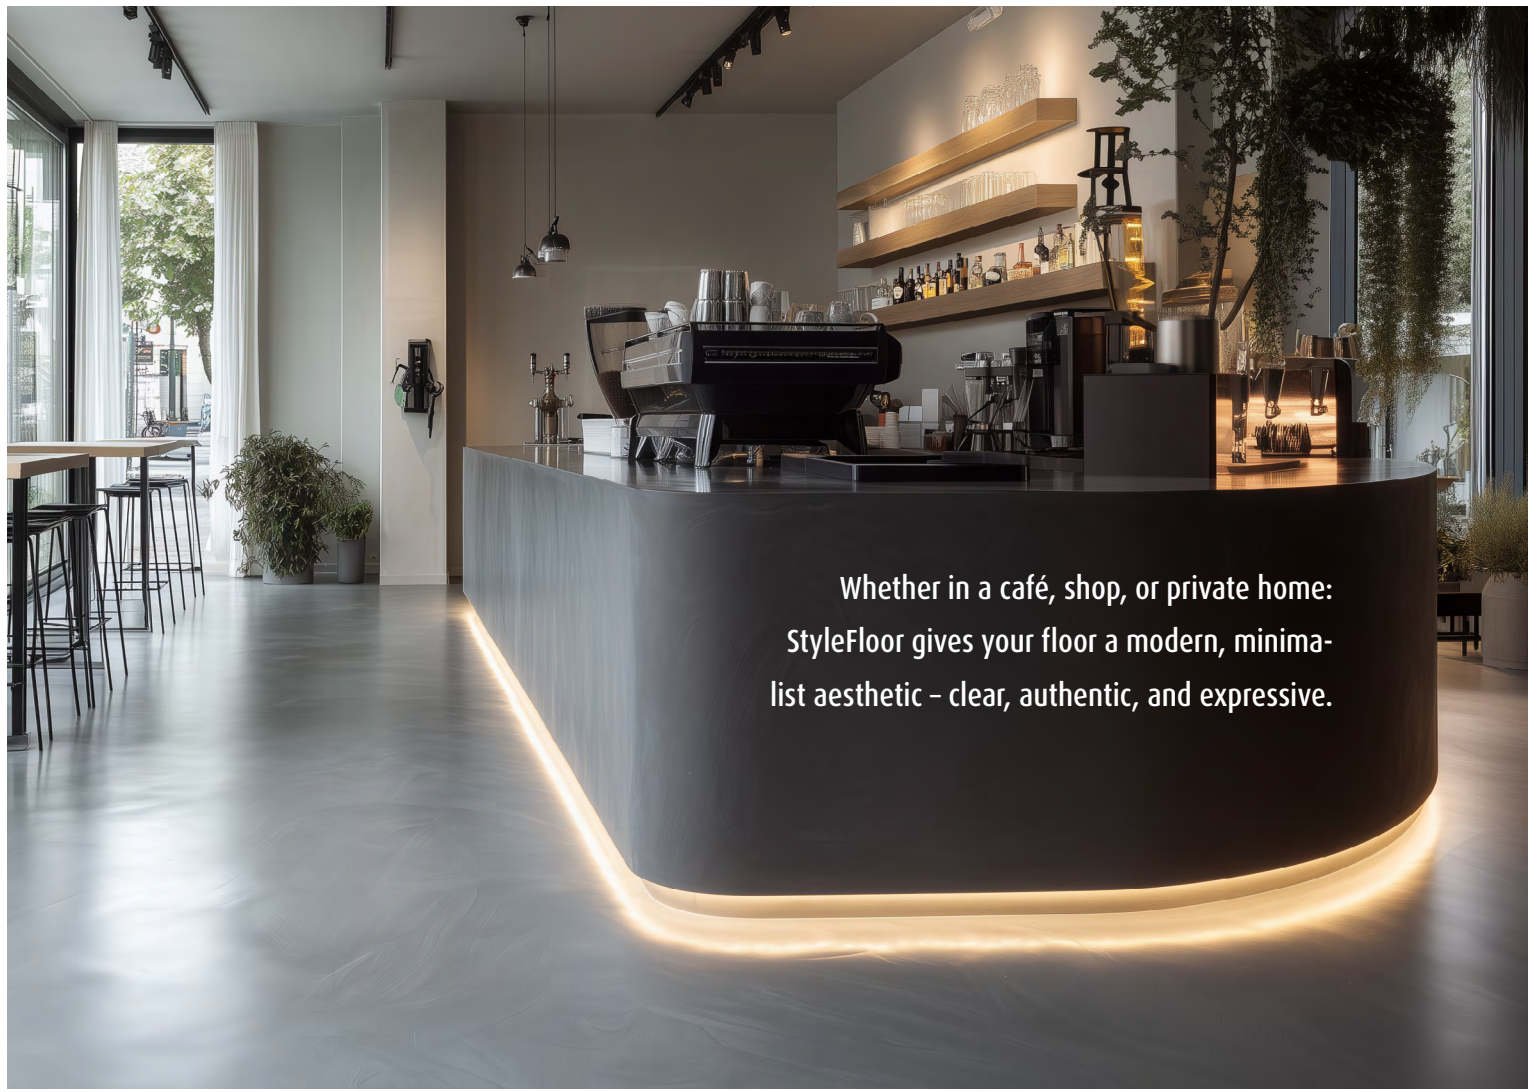

BRUSH EFFECT

Special effects can be created with targeted brush use. The surface gains depth and dynamism.

Every floor is unique

StyleFloor convinces with calm, mineral surfaces and a characteristic texture created by handcraft application. Each surface is unique – shaped by the applicator's touch and the interplay of technique, material, and light.

Whether in a café, shop, or private home:
StyleFloor gives your floor a modern, minimalist aesthetic – clear, authentic, and expressive.

LOBA Style System – your seamless mineral floor covering

The smart solution for a stylish, seamless look: ideal for renovations and individual design.

Fast renovation with minimal effort

Renovate quickly and with low dust? With StyleFloor, no removal of old coverings is necessary.

Versatile on different subfloors

Is your old floor PVC, linoleum, or tiles? StyleFloor adheres perfectly to the existing floor.

Cost-effective and perfect for renovations

Application on the existing floor reduces labor and costs. And your floor is ready for use again quickly!

Individual design possibilities

Whether color, texture, or surface – with StyleFloor, design the floor that suits you.

Suitable protection for your mineral floor

The mineral floor covering is permanently protected by a compatible LOBA sealant such as 2K Style.

Four perfectly matched layers for a safe, long-lasting result:

1 Preparation

2 Flooring with/without coloration

3 Primer

4 Finish*

* Alternatives:

2K Resist for high resistance against household chemicals, disinfectants, hair dyes.

EasyFinish Neo for the simplicity of a 1K finish – based on renewable raw materials.
